

Jessica A.

USER-CENTERED QA AND SYSTEMS PROFESSIONAL

Jacksonville Metropolitan Area | itcouldbebetter404@gmail.com

PROFESSIONAL SUMMARY

Quality assurance and systems-focused professional bringing more than five years of frontline restaurant experience into entry-level QA, UAT, or application-support work. Skilled at noticing when system behavior conflicts with real operating conditions, documenting defects, assessing user impact, and translating observations into practical recommendations. Motivated to reduce unnecessary friction in high-stakes systems people must navigate while already under pressure.

CORE SKILLS

Exploratory and black-box testing | Expected-versus-actual analysis | Defect documentation | User-impact and risk analysis | Acceptance criteria | Workflow design | Systems thinking | Technical documentation | Privacy-aware evidence handling

SELECTED PROJECTS

Public-Benefits Application QA Investigation | Independent QA Case Study

- Investigated three material issues involving evidence mapping, OCR or entity extraction, and cross-field validation during an ordinary user workflow.
- Created focused defect records with expected and actual results, user-impact analysis, privacy boundaries, acceptance criteria, and verification recommendations.

Tana Organization | Systems Design Case Study

- Designed a private knowledge-management workflow around observed capture, processing, connection, retrieval, and action behavior.
- Translated recurring friction into requirements, information architecture, workflow decisions, tradeoff analysis, and maintainability boundaries.

PROFESSIONAL EXPERIENCE

Server / Bartender | Texas Roadhouse - Kingsland, GA | Dec 2025-Present

- Use POS and mobile POS systems, assist with customer-facing payment devices, resolve routine concerns, and document returned items through a structured manager-escalation process.
- Identified a recurring mismatch between physical beverage inventory and POS availability after unavailable items reset overnight; established a start-of-shift verification habit with managers.
- Guide customers through Ziosk payment steps, protect privacy during tip selection, verify successful completion, and follow responsible alcohol-service requirements.

Server / Bartender / Trainer | LongHorn Steakhouse - Kingsland, GA | 2020-2025

- Trained new employees through the company manual, job shadowing, guided role reversal, and support during the transition to independent work.
- Served as front- or back-of-house closer, checking table resets, silverware, cleaning, and assigned side work against shift requirements before releasing team members.
- Managed shared bar cash responsibilities, counted opening funds, collected restaurant cash from servers, and coordinated reconciliation with management.

EDUCATION AND TRAINING

Bachelor of Science in Computer Science | University of the People | In Progress

Georgia Alcohol Seller-Server Course - Serving Alcohol | Issued Dec 2025; valid through Dec 2028
