

JESSICA A.

JUNIOR QA ANALYST | MANUAL TESTING | APPLICATION SUPPORT

Jacksonville Metropolitan Area | 912-467-8770 | itcanbebetter404@gmail.com | QA & Systems Portfolio

PROFESSIONAL SUMMARY

Computer science student and customer-service trainer transitioning into quality assurance and application support. Combines more than five years of frontline service with hands-on portfolio work in exploratory testing, expected-versus-actual defect documentation, privacy-aware investigation, usability analysis, acceptance criteria, and structured technical communication.

CORE SKILLS

Quality Assurance	Exploratory and black-box testing, defect decomposition, expected-versus-actual analysis, user-impact assessment, acceptance criteria
Support & Communication	Customer communication, training, issue resolution, process documentation, privacy-aware evidence handling, organization
Technical Foundation	HTML, CSS, basic JavaScript, responsive design, DOM concepts, GitHub, Microsoft Office, Google Workspace

PROFESSIONAL EXPERIENCE

Server / Bartender | Texas Roadhouse, Kingsland, GA

Dec 2025–Present

- Guide customers through ordering and payment, respond to concerns, protect privacy at customer-facing devices, and coordinate solutions with managers and coworkers.
- Identified a recurring mismatch between physical beverage inventory and POS availability; established a repeatable start-of-shift verification check with managers.

Server / Bartender / Trainer | LongHorn Steakhouse, Kingsland, GA

2020–Dec 2025

- Trained new employees using written materials, job shadowing, guided practice, and continued support as they began working independently.
- Verified closing work against shift requirements and managed shared bar cash responsibilities while maintaining customer-service duties.

SELECTED TECHNICAL PROJECTS

Public-Benefits Application QA Investigation | Independent Case Study | [View case study](#)

- Investigated three material workflow issues, translated observations into expected-versus-actual records, and documented user impact, privacy boundaries, acceptance criteria, and verification recommendations.

ShiftRight | Worker-Focused Web Application QA Case Study | [View case study](#)

- Tested a synthetic guest journey, verified dashboard calculations, reviewed privacy and usability risks, interpreted CI/build evidence, and documented passing, blocked, and not-run checks.

EDUCATION

Bachelor of Science in Computer Science, In Progress | University of the People

Expected 2027
